Echostar Blocker added to tools section :)

You heard it right people an Echostar Blocker can be made with a combo card and few tiny mods, complete info is available for download in the "Echostar Tools" section, be sure to read the included .txt file for more info.

Welcome to the new version of the Echostar page, I have changed it mainly because the group contributing the info would rather be referred to as the "Swiss Group" or "Swiss Cheese Productions" and thats fine with me and also because using "Mr. Bean" and his images on this site could possibly violate copyright laws and thats a no no.

Today I have added a new .zip file Rev313 which is more valuable info coming from the Swiss Cheese Boyz, the file contains a small read me as well as a dump from a running cam on the Echostar card as well as public keys, have a look you'll be very impressed if you have any idea how to use this info. Thanks again to the Swiss Group for donating this file as well as the first text file containing other valuable info, its greatly appreciated and myself as well as the visitors to this site look forward to more :)

FAQ page should be finished in the next day
